

Human Service & Aging Committee
Joint Public Hearing
February 16, 2023

I am writing in Support of the following bills to better define the quality of life that residents of nursing homes can expect anywhere in Connecticut:

S.B. No. 930
S.B. No. 989
H.B. No. 6626
H.B. No. 6627
H.B. No. 6386
H.B. No. 6575
H.B. No. 6578

Our friends and loved ones that reside in long term care facilities have worked and contributed to our society throughout their lives. Now, that they can no longer contribute due to age, illness or disability and are in need of institutional care, our residents of facilities deserve a dignified level of care worthy of all of us, that we can all expect. These bills help ensure consistent, minimum acceptable quality of care for residents of any and all facilities.

Respectfully submitted,
Frederic (Rick) Kaeser
Seymour, Connecticut
